

Thank you so much for taking care of our cats while we are away.

Below are is rough guide on how to for care for our little tigers - please don't stress too much about details, they are fed well enough as is anyway. Also, don't hesitate to reach out if you have any questions or concerns.

daily (anytime that suits, ideally in the evening)

- feed once
- each cat gets 50-80g of wet food with some (tap) water in own bowl
- portions are in pouses/cans in the oven (close afterwards so they can't get at it themselves)
- Carlo (big, fat tux chub) can have extra watter on the food
- redo/refill water bowls (in kitchen next to food bowls)
- don't worry if not all show up immediately for food - with 'strangers' some are shy at first

litter boxes:

- scoop all litter boxes daily into toilet and flush liberally
- theres is two in the ground floor and two in the upstairs family bathroom
- we will set up everything before we leave, should you feel you need new litter there is some in the hot press

general care:

- we have cameras to check in on them occasionally - should you feel there is something wrong though please let us know
- when you first get you can open the kitchen window (sink) so they can get out to their little terrace and close before you leave
- if you have time to spare, toys (fishing rods etc.) are in the living room
- should you find occasional hairballs etc. pick them up as you see fit, don't feel the need to clean up after them

in case of emergency or concerns:

- Stella: [+353 87 3445 604, stella0scholl@gmail.com]
- Philipp: [+353 87 1922 755, rayleighsjeans@gmail.com]

We truly appreciate your help. Thank you again for looking after our cats!

Sincerely,

Stella & Philipp
