

Thank you so much for taking care of our cats while we are away.

Below are is rough guide on how to for care for our little tigers - please don't stress too much about details, they are fed well enough as is anyway. Also, don't hesitate to reach out if you have any questions or concerns.

### **daily (anytime that suits, ideally in the evening)**

- feed once
- each cat gets wet food with some (tap) water in own bowl
- portions are in pouces/cans in the oven (close afterwards so they can't get at it themselves)
- Carlo (big, fat tux chub) can have extra water on the food
- redo/refill water bowls (in kitchen next to food bowls)
- don't worry if not all show up immediately for food - with 'strangers' some are shy at first

#### **litter boxes:**

- scoop all litter boxes daily into toilet and flush liberally
- there's two in the ground floor and two in the upstairs family bathroom
- we will set up everything before we leave, should you feel you need new litter there is some in the hot press

#### **general care:**

- we have cameras to check in on them occasionally - should you feel there is something wrong though please let us know
- when you first get you can open the kitchen window (sink) so they can get out to their little terrace and close before you leave
- if you have time to spare, toys (fishing rods etc.) are in the living room
- should you find occasional hairballs etc. pick them up as you see fit, don't feel the need to clean up after them
- cleaning utilities are in the lower bathroom - green spray bottle is bleach, other is enzymatic pet cleaner

#### **in case of emergency or concerns:**

- Stella: [+353 87 3445 604, stella0scholl@gmail.com]
- Philipp: [+353 87 1922 755, rayleighsjeans@gmail.com]

We truly appreciate your help. Thank you again for looking after our cats!

Sincerely,

Stella & Philipp
